

§ 62.3 Definition of terms.

Certain terms as used in this subchapter are defined as follows:

(a) *Aid to Navigation*. The term aid to navigation means any device external to a vessel or aircraft intended to assist a navigator to determine position or safe course, or to warn of dangers or obstructions to navigation.

(b) *Commerce*. The term commerce, in addition to general, national and international trade and commerce of the United States, includes trade and travel by seasonal passenger craft (marine and air), yachts, houseboats, fishing boats, motor boats, and other craft, whether or not operated for hire or profit.

(c) *Commandant*. The term Commandant means the Commandant of the Coast Guard.

(d) *District Commander*. The term District Commander means the commander of a Coast Guard District. Coast Guard Districts are listed in Part 3 of this chapter.

(e) *Corps of Engineers*. The term Corps of Engineers means the Corps of Engineers, Department of the Army.

(f) *Person*. The term person imparts both singular or plural, as the case demands, and includes any Federal Agency, State, Territory, possession, or public subdivision thereof, the District of Columbia, and any corporation, company, association, club, or other instrumentality.

(g) *Navigable waters of the United States*. The term navigable waters of the United States is defined in § 2.36(a) of this chapter.

[CGD 86-031, 52 FR 42640, Nov. 6, 1987, as amended by USCG-2001-9044, 68 FR 42601, July 18, 2003]

§ 62.5 Marking of marine parades and regattas.

(a) The Coast Guard may establish aids to navigation to mark marine parades and regattas which are regulated by the Coast Guard for the purpose of protecting life and property, or to assist in the observance and enforcement of special regulations. For marine parade and regatta regulations, see Part 100 of this chapter.

(b) [Reserved]

Subpart B—The U.S. Aids to Navigation System**§ 62.21 General.**

(a) The navigable waters of the United States and non-navigable State waters after December 31, 2003, are marked to assist navigation using the U.S. Aids to Navigation System, a system consistent with the International Association of Lighthouse Authorities (IALA) Maritime Buoyage System. The IALA Maritime Buoyage System is followed by most of the world's maritime nations and will improve maritime safety by encouraging conformity in buoyage systems worldwide. IALA buoyage is divided into two regions made up of Region A and Region B. All navigable waters of the United States follow IALA Region B, except U.S. possessions west of the International Date Line and south of 10 degrees north latitude, which follow IALA Region A. Lateral aids to navigation in Region A vary from those described throughout this Subpart. Non-lateral aids to navigation are the same as those used in Region B. See § 62.25. Appropriate nautical charts and publications should be consulted to determine whether the Region A or Region B marking schemes are in effect for a given area.

(b) The U.S. Aids to Navigation System is designed for use with nautical charts. Nautical charts portray the physical features of the marine environment, including soundings and other submarine features, landmarks, and other aids necessary for the proper navigation of a vessel. This crucial information cannot be obtained from other sources, even ones such as topographic maps, aeronautical charts, or atlases. The exact meaning of an aid to navigation may not be clear to the mariner unless the appropriate chart is consulted, as the chart illustrates the relationship of the individual aid to navigation to channel limits, obstructions, hazards to navigation, and to the total aids to navigation system.

(c) The navigator should maintain and consult suitable publications and instruments for navigation depending on the vessel's requirements. This shipboard equipment is separate from the aids to navigation system, but is often
